Nursing Ethics (Paperback)

By Ian E. Thompson, Kath M. Melia, Kenneth M. Boyd,

Elsevier Health Sciences, United Kingdom, 2006. Paperback. Condition: New. 5th Revised edition. Language: English. Brand new Book. The fifth edition of this highly popular text offers a lucid and readable account of ethical issues affecting nurses and other health care practitioners, which will be of value throughout their careers. Nursing ethics offers a highly practical approach with a direct focus on ethical issues that might be encountered by health practitioners in training, in practice and in management. It is also interactive and case-based, encouraging readers to reflect on their current and future areas of practice. The concluding chapters discuss the role of moral theory and give practical models for ethical decision-making. The authors have developed a holistic approach that explores: ethics in hospital and community settings, inter-disciplinary teamwork, ward and hospital management, nursing research, performance management and the political ethics of nursing administration, health service re-structuring and reform. The content has been substantially revised for this edition and significant new material added to reflect developments in theory and practice. covers a wide range of ethical issues - much more than just 'clinical' dilemmas and decision-making skills a down-to-earth and practical approach to applied ethics user-friendly layout material on moral theory kept to a minimum...
